

Welcome!!

Welcome to the webpage for the South Fork Flyers R/C club. We are a group of R/C airplane enthusiasts, hoping to expand interest in the hobby by creating a friendly, educational, and (most of all) FUN environment for anybody interested in learning the hobby.

2007 will be our first year as an official flying club, as well as our first year registered as a club with the AMA. We look forward to the experience of "learning on the fly", but believe we will have alot to offer to anyone interested in becoming a member. We feel we have one of the finest R/C facilities in the Midwest, thanks to the hard work and enthusiasm of Keith and Sandy Marshall (owners of the Marshall R/C facility).

As a member of South Fork Flyers, you will have access to a wealth of knowledge and expertise provided by the years of experience of our more "seasoned veterans" of the hobby. Our resident "experts" will be more than happy to teach you the ropes! You'll truly never meet a nicer group of people.

You can also feel secure in the knowledge that you are not the only one new to it all. We have several people in our club that are in their 1st or 2nd years of flying, which can also be very helpful in "getting over the hump" and picking up skills. EVERYBODY has something to offer!!

The best part of this hobby is the friendships built by sharing these experiences.....the stories told, the laughs, the successes (and unfortunately, sometimes the setbacks). Sometimes, it as just as enjoyable just hanging out with the crew as it is to actually fly.

So, we hope you'll join us this year. We have some great ideas brewing, and look forward to a fantastic summer of flying!

If interested, or if you just want more information, just drop an email to either of the links below, we'll help you in any way possible.

If you're not quite ready for that commitment, please feel free to drop by the flying field this summer and check out all that we have to offer.....we know you'll leave impressed!

Sincerely,

**Michael Jenness
Club President**
